TECHNICAL SKILLS

- **Languages:** Java, Python, C++, PHP, JavaScript, HTML5, CSS3
 - **Databases:** MySQL, Firebase (Firestore, Realtime DB)
 - **Tools & Platforms:** Git, GitHub, Visual Studio Code, Firebase Hosting
-

EXPERIENCE

JP Express Services Inc. – IT Intern

June 2023 - Aug 2025

- Assisted in maintaining and troubleshooting company hardware, software, and network infrastructure across office and warehouse environments.
- Supported IT staff in configuring workstations, managing user accounts, and deploying software updates using internal ticketing systems.
- Documented technical procedures and assisted in diagnosing network connectivity issues, reducing downtime for logistics operations.

JP Express Services Inc. – Dock Worker/Delivery Helper

Sept 2021 - Present

- Coordinated with drivers and warehouse staff to optimize loading efficiency and reduce dispatch delays.
- Delivered packages to residential and commercial clients while maintaining professional customer communication.
- Resolved delivery discrepancies and customer concerns, improving overall service reliability.
- Demonstrated strong time management and problem-solving skills in a fast-paced, deadline-driven environment.

Handshake - AI Fellow

January 2026 - Present

- Develop and optimize prompt engineering strategies to train AI models for accurate public space classification and description generation.
- Design systematic prompt training protocols that improve model performance in generating precise spatial descriptions across diverse environment datasets.
- Conduct iterative testing and refinement of prompt designs to enhance AI output quality, reliability, and accuracy in natural language processing applications.

EDUCATION

B.S. Computer Programming & Information Systems

(Spring 2024)

Farmingdale State College, Farmingdale, NY - GPA 3.66

Master of Science in Computer Science

(Expected Graduation: 2028)

New York Institute of technology, Old Westbury, NY

PROJ

ECTS

- Collaborated in team-based development environments, participating in feature planning, testing, and iterative UI/UX enhancements following Agile-style workflows.
